

## CARE Report

**2/18/2017**

CARE Project for the next two years is called Educational Opportunities for Girls. The expected results of the project are as follows. 1) An increase in the number of secondary school girls who remain in school and complete all grades, and a related reduction in teen pregnancies. 2) An improvement in the self-confidence, social abilities, leadership skills and life plans of secondary school girls. 3) An increased awareness and active commitment to the education of girls among parents, teachers and principals from secondary schools.

Our goal for this year is \$40,000, at this time we should have 20K and are far short of that figure as we have only \$11,715. However I have great confidence in our CARE Reps and District Governors in promoting CARE the final 5 months of the year. Asking each Rep to contact clubs and promote by email, visit, through district newsletter, etc. Something our club does above the budget is each member donates \$5.00 during the month they were born, 53 members brings an additional \$265.00. As we need to finish strong, lets start thinking about next year and what can we do to increase giving.

To achieve our goal of \$40,000.00 we need to average \$4.444 per District. We have a couple of districts that are nearing that goal already, thank you. Others need to push the remainder of the year.

Through 12/31/2016 here are the totals by District

A) \$700.00  
B) \$1150.00  
C) \$1250.00  
D) \$1050.00  
E) \$2285.00  
F) \$805.00  
G) \$50.00  
H) \$3575.00  
I) \$850.00  
Total \$11,715.00
