

Care Report: June 2021

So far, the fundraising efforts have reached over 21,000.00 dollars US, as we continue to ask clubs to consider donating for this worthy project to assist young girls in Haiti get a basic education.

Our next effort will be a push to have clubs set aside funds in their budgets as we fight to regain some sense of normalcy as we transition away from zoom meetings to in-person meetings. We will not rest until we meet our goals.
